

Ultradot Has Gone Green

Introducing the Tried & True Matchdot II Now Available in Green Dot

Ultradot began over 35 years ago with the creation of our first sight to use the red dot aiming system technology. Over the years we have expanded the line to offer our customers different features to improve their shooting experience.

At Ultradot we strive to offer dependable and affordable sights, something that you can count on.

We provide a limited lifetime warranty and have an exceptional team to support your shooting needs.

Ultradot Gen1

The Gen1 is where it all began! This sight is our compact light weight sight that sets the standard. Features a 4 MOA dot in either a 25mm or 30mm tube. Available in both black matte and silver satin.

Ultradot Gen2

The Gen2 is our newest addition to the line which follows in the tradition of the Gen1 but with a 2 MOA dot. Also available in 25mm and 30mm tube in both black matter and silver satin.

Matchdot

The Original Matchdot has become legendary in the bullseye community for its accuracy, durability and quality construction. Features four dot sizes - 2, 4, 6 and 8 MOA and a 30mm diameter tube. Available only in a Black/Silver matte finish

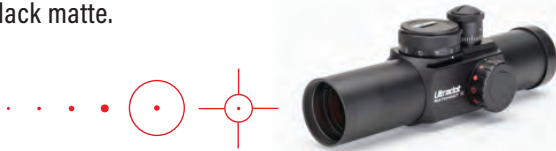

Ultradot 4

This is the latest generation of the Ultradot 4 which provides the most popular dot sizes 2, 4, 8 and 10 MOA. Available in a 25mm tube providing quick acquisition of your target without the distraction of your neighbor's targets on the line. Available in black matte.

Matchdot II

The Matchdot II picks up where the Original Matchdot left off. Built for serious competitors, the sight has 4 dot sizes (2, 4, 6 and 8 MOA) plus two reticle patterns for added flexibility in a 30mm tube. Elevation adjustments can be made "on the fly" with the external turret. Available in black matte.

Matchdot II GREEN

The Matchdot II picks up where the Original Matchdot left off. Built for serious competitors, the sight has 4 dot sizes (2, 4, 6 and 8 MOA) plus two reticle patterns for added flexibility in a 30mm tube. Elevation adjustments can be made "on the fly" with the external turret. Available in black matte.

Ultradot L/T

The Ultradot L/T is a durable sight engineered to give you the advantage of a red dot sight in a compact and lightweight design. Features a 4 MOA dot with a built-in rail clamp system that makes installation and removal a quick and easy process.

Pan AV

The Pan AV is a durable, high-quality sight engineered to give you the advantage of a red dot sight in a compact lightweight, water resistant and shockproof design. This 33mm lens allows unlimited eye relief and a wide field of view. Features a 4 MOA dot and 3 reticle patterns. Available in black matte.

IT'S IN THE WORKS!

The new Ultradot L/T DM is coming soon!

Stay tuned!

The Ultradot L/T DM includes a direct mount system with the durability and quality of the original L/T.
